

How to use the ReVIEW Player

The ReView player has 8 actions that allow you to control how you view the recording.

- 1) The Play / Pause Button . Clicking this will pause or play the recording:

- 2) The Volume Bar . This controls the level the audio is outputted. Click on the speaker to bring up the slider:

- 3) The Skip Back Button. This button will rewind 10 seconds and play from there. This is useful when you miss something:

- 4) The Progress Bar . This lets you know where you are at viewing the recording. You can drag the indicator to quickly seek to a specific point in the recording:

- 5) The Quality Icon. Next to the progress bar, the gear icon will allow you to choose your streaming quality. Your download speed will also show on this bar:

- 6) The Stream Picker. If your viewing a session with multiple streams, you can pick which one you see:

7) The Hide Button. The last part of the player allows you to hide the thumbnails and increase the size of whichever stream you have selected. Once hidden you can click it again to show the thumbnails:

8) The Expand Button. You can maximize either stream by hovering over it and clicking the expand button. Once in Full Screen mode you can click the "esc" key or click the link to return to the normal viewer.

Shortcut Keys

The new viewer allows you to use shortcut keys to control the player.

Spacebar - Pause/Play the session

Left/Right arrow keys - skip 5 seconds backwards or forwards

Up/Down arrow keys - adjust volume up or down

The M key - mutes and unmutes the recording

How to navigate through a recording

You can navigate through a recording in several different ways. The first is to use the progress bar as we looked at previously
